Local Linux Installation & System Optimization Service

One fixed price. One guarantee. A machine that finally feels new.

1. Technician Profile & Pricing

Field	Details
Name	Local SysAdmin Specialist (Maumere)
Location	Maumere, Sikka, East Nusa Tenggara, Indonesia
Service	Professional Linux OS Installation, Migration & Performance Optimization
Supported Distros	MX Linux · Linux Mint · Zorin OS (100% Debian/Ubuntu-based)
Flat Rate Fee	IDR 50,000 / ~€3.00
Scope Included	OS install (single or dual-boot) · drivers & Wi-Fi · basic customization · 7-day WhatsApp support

No hidden costs. Pay only after a successful, verified installation.

2. Real Empirical Benchmark — Before vs. After

Measured on a **legacy ASUS laptop (Intel Core i3, 4 GB RAM, HDD)**, Maumere, 2026.

Metric	BEFORE — Windows 11 (Legacy Setup)	AFTER — MX Linux / FOSS Lightweight Setup
Boot Time	Slow; sluggish on legacy ASUS hardware	< 10 seconds (ultra-fast)
Idle RAM Usage	> 3.5 GB high background footprint	< 600 MB extremely low
Drive / Storage Maintenance	Constant “Needs optimization” warnings after 128+ days (TRIM)	TRIM managed automatically; zero warnings
Background Disk I/O	Persistent overhead from telemetry & bloatware	Minimal, predictable I/O
Thermals / Noise	Heavy fan noise from background load	Silent operation , low CPU temperatures
Bloatware / Telemetry	Preinstalled bloatware, forced update cycles	Zero bloatware , no forced updates
Malware / AV Overhead	Antivirus bloat reducing responsiveness	100% free of malware/AV bloat

Headline Results

KPI	Windows 11 (Before)	MX Linux (After)	Improvement
Idle RAM footprint	> 3.5 GB	< 600 MB	~6× lower
Boot time	slow	< 10 s	seconds, not minutes
Fan noise	heavy	silent	eliminated

3. Authentic Social Proof — Endorsement

“Setelah diganti ke Linux, laptop saya jadi jauh lebih cepat, lancar, dan tidak pernah bermasalah. Dulu sering lemot dan berisik, sekarang langsung nyala dan semua berjalan mulus. Benar-benar tanpa repot.”

— **Bapak, Maumere** (primary client, daily-driver user)

4. Multilingual Summary

Bahasa Indonesia (ID)

Layanan profesional instalasi dan optimasi Linux di Maumere dengan harga tetap **Rp 50.000 / ±€3,00**. Hasil terukur pada laptop ASUS lawas (Core i3, 4 GB RAM): boot **di bawah 10 detik**, RAM idle **di bawah 600 MB**, dan **senyap total** tanpa dengung kipas — dari sebelumnya Windows 11 yang boros RAM (3,5+ GB), penuh bloatware, dan selalu menampilkan peringatan optimasi drive. Distribusi yang dipasang: **MX Linux, Linux Mint, dan Zorin OS** (basis Debian/Ubuntu yang stabil). Support WhatsApp selama 7 hari setelah instalasi, bayar setelah berhasil.

Deutsch (DE)

Professioneller Linux-Installations- und Optimierungsdienst in Maumere zum Festpreis von **50.000 IDR / ca. €3,00**. Gemessene Ergebnisse auf einem älteren ASUS-Laptop (Core i3, 4 GB RAM): **Start in unter 10 Sekunden**, Leerlauf-RAM **unter 600 MB** und **völlig geräuschloser Betrieb** — verglichen mit Windows 11, das über 3,5 GB RAM verbrauchte, Bloatware enthielt und dauerhaft Festplatten-Optimierung anmahnte. Installierte Distributionen: **MX Linux, Linux Mint und Zorin OS** (stabile Debian-/Ubuntu-Basis). 7 Tage WhatsApp-Support nach der Installation; Zahlung erst nach erfolgreichem Abschluss.

English (EN)

Professional Linux installation and optimization service in Maumere at a flat rate of **IDR 50,000 / ~€3.00**. Measured results on a legacy ASUS laptop (Core i3, 4 GB RAM): **boot in under 10 seconds**, idle RAM **under 600 MB**, and **completely silent** operation — versus Windows 11, which consumed 3.5+ GB of RAM, shipped with bloatware, and constantly warned about drive optimization. Installed distributions: **MX Linux, Linux Mint, and Zorin OS** (stable Debian/Ubuntu base). 7-day WhatsApp support after installation; pay only upon successful completion.
